2. Introduction

2.1 The Client named in the **Data Sheet** intends to select a Consultant in accordance with the method of selection specified in in the **Data Sheet**.

2.2 Interested consultants are to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.

2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.

2.4 In a timely manner and at no cost to the Consultants, the Client will provide the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.

3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank.

3.3 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:

Conflicting activities

3.3.1 **Conflict between consulting activities and procurement of goods, works, or nonconsulting services.** A firm that has been engaged by the Client to provide goods, works, or nonconsulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or nonconsulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or nonconsulting services resulting from or directly related to the consulting services for such preparation or implementation.

Conflicting

3.3.2 **Conflict among consulting assignments.** A Consultant (including its Experts and Sub-Consultants) or any of its

-
- assignments** Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.
- Conflicting relationships** 3.3.3 **Relationship with the Client's staff.** A Consultant (including its Experts and Sub-Consultants) that has a close business or family relationship with a professional staff of the [Borrower or the Client or the Recipient or Beneficiary] or of the [implementing/executing agency] or of a recipient of a part of the Bank's financing who are directly or indirectly involved in any part of (i) the preparation of the TOR for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.
- 3.3.4 Any other types of conflicting relationships as indicated in the **Data Sheet**.
- 4. Unfair Competitive Advantage** 4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all participants together with this RFP all information that would in that respect give such a Consultant any unfair competitive advantage over competing Consultants.
- 5. Corrupt and Fraudulent Practices** 5.1 The Bank requires compliance with its Anticorruption Policy as set forth in Section 6.
- 5.2 In further pursuance of this policy, the Consultant shall permit and shall cause its sub-consultants and sub-contractors to permit the Bank or its representatives to inspect their site, assets, accounts, records and other documents relating to the submission of the Proposal and execution of the contract, and to have the accounts and records audited by auditors appointed by the Bank.
- 6. Eligibility** 6.1 The Bank permits consultants (individuals and firms, including JVs and their individual members) from the eligible countries as stated in Section 5 (Eligible Countries) to offer consulting services for Bank-financed projects. In the case of a JV,
- (a) all partners shall be jointly and severally liable; and
(b) the JV shall nominate a representative who shall have the authority to conduct all business for and on behalf of any and all the parties of the JV during the bidding process and, in the event the JV is awarded the Contract, during contract
-

execution.

6.2 The Consultant, and all parties constituting the Consultant, should be nationals of an eligible country, in accordance with Section 5 (Eligible Countries). A Consultant shall be deemed to have the nationality of a country if the Consultant is a citizen or is constituted, incorporated, or registered, and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed subcontractors for any part of the Contract including related services.

6.2.1 International Experts employed or engaged by an eligible consulting firm will be considered eligible regardless of their nationality.

6.2.2 National Experts proposed by the firm must meet eligibility requirements as defined in **Data Sheet 1(k)**.

6.3 As an exception to Clauses 6.1 and 6.2 above:

Sanctions

6.3.1 A firm or an individual temporarily suspended or debarred (including cross debarred) by the Bank in accordance with the above Clause 5.1 or in accordance with the Applicable Guidelines shall be ineligible to participate in or to be awarded a Bank-financed, - administered, or -supported contract, or to benefit from a Bank-financed, -administered, or -supported contract, financially or otherwise, during such period of time as the Bank shall determine. A bid from a temporarily suspended or debarred firm or individual will be rejected and such bid may be in breach of debarment conditions, thereby subject to further ADB's investigation. ADB's Complete Anticorruption Sanctions List is contained in the **Data Sheet**.

6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in respect of goods or services originating in that country, or the Borrower's Country prohibits payments to particular persons or entities or for particular goods

or services by such an act of compliance.

**Restrictions for
Government-
owned Enterprises**

**Restrictions for
public employees**

6.3.4 Government officials and civil servants may only be hired under consulting contracts, as members of a team of a consulting firm, if they (i) are on leave of absence without pay; (ii) are not being hired by the agency they were working for immediately before going on leave¹; and (iii) their employment would not create a conflict of interest).

If a Consultant, including any JV member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-Consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify.

**12. Proposal
Validity**

- 12.1 The **Data Sheet** indicates the period during which the Consultant's Proposal must remain valid after the Proposal submission deadline.

- Sub-Contracting**
- 12.9 The Consultant shall not subcontract the whole of the Services.
- 13. Clarification and Amendment of RFP**
- 13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source). Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:
- 13.1.1 At any time before the proposal submission deadline, the Client may change the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted consultants and will be binding on them. The shortlisted consultants shall acknowledge receipt of all amendments in writing.

If there is a discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of a unit price with the quantity and the total price, or (iii) between words and figures, the former will prevail. In case there is a discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantity indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

6.5. Analysis and Studies

An initial review of some of the project sites and condition assessment has been done, and some conceptual drawings for selected sites are available. The findings of the initial review and sample conceptual drawings would be provided to the short-listed firms of these reports. The selected DSC firm will carry out the following:

- a) Visit all the sites selected and prepare condition assessment and site studies.
- b) Ensure feasibility of accommodating the proposed requirements in terms of built-up space.
- c) Check adequacy in terms of approach road, internal roads, drainage, site stabilization through retaining walls etc, boundary walls
- d) Assess requirement of retrofitting of existing buildings for safety and prepare necessary specifications
- e) Ensure there are no encroachment/settlement issues in all project sites.

-
- f) Check capacities of utilities, adequacy of power, water supply and possibility of ground water extraction
 - g) List buildings that are unsafe/abandoned
 - h) The reports will be supported by photographs, plans and sketches.

6.6. Preliminary Report

On the basis of the above studies as per Clause 6.5 (a) –(h), the DSC firm will prepare a schedule of accommodation to be built, requirements for repairs of buildings and site infrastructure, additional roads and pathways, boundary walls and gates as well as additional utilities such as water, power and site lighting. This Preliminary Report shall be accompanied by a budgetary estimate, and will be discussed with the PIUs in order to form the basis for preliminary designs.

6.7. Preliminary Designs

Preliminary designs for all the projects shall be taken up in a sequential manner, based on the priorities assigned by the PIUs and approvals taken.

6.8. Tests & Surveys

The DSC firm shall arrange for the topographic and geo technical surveys and soil tests for the selected sites, as and when required, the costs of which will be reimbursed to the DSC firm.

6.9. Specifications

A standard set of specifications for all building components and site infrastructure components will be prepared by the DSC in consultation with the Engineering Wing of the Department of Education and the technical experts from respective PIUs. This will take into account best locally available materials, with consideration to maintainability and replaceability.

He/she shall prepare a Social Action Plan for all work sites and supervise, monitor and assess safeguards compliance and recommend corrective actions where needed in collaboration with DoE (Engineering Wing).
 - h) Assist the PMU/PIU in the bidding process.

6.11. Construction schedule, monitoring reporting templates

The data collected by the DSC while preparing the condition assessments would form a critical baseline in terms of not just structural information on the overall infrastructure and safety of the selected schools / Polytechnic / ITIs , but also of their student and teacher profile. The DSC will therefore, prepare a database on key indicators such as construction schedule, monitoring reporting templates sub project milestones pertaining to the civil works for all institutes so that it becomes easier to track the progress of the work. The DSC will prepare case studies and reports documenting commonalities and variations in the schools / Polytechnic / ITIs across districts.

6.12. Construction Supervision

The DSC shall supervise and manage the construction activities, and advise the contractors about best practice. Provide technical support to the contractors as required.

6.13. Specific Tasks

Ways of recharging the ground water in and

nearby the schools & other institutions should also be explored (include traditional wisdom). The design should ensure that adequate water is available for maintaining hygiene in the toilet (e.g., water tank on roof top). The DSC will also explain to the staff of the institutes, the basic maintenance and housekeeping for ensuring continuous cleanliness and hygiene so that flies and mosquitoes do not thrive and there is no water stagnation. A manual for maintaining the water harvesting apparatus and maintaining toilet hygiene should also be prepared by the DSC as required.

- e) Explore the scope for encouraging contractors to use and train local youth in the specialized upgrading work. This would help to create local job opportunities.
- f) Ensure design is gender equality and social inclusion (GESI) responsive and disaster resilient.
- g) Seek approval from DoE (Engineering Wing), and other government counterparts as required on the above.

The Consultant shall state here the name, source institution, and any necessary identifying characteristics of the official index for salaries corresponding to I_f and I_{fo} in the adjustment formula for remuneration paid in foreign currency: *[Insert the name, source institution, and necessary identifying characteristics of the index for foreign currency, e.g. "Consumer Price Index for all Urban Consumers (CPI-U), not seasonally adjusted; U.S. Department of Labor, Bureau of Labor Statistics"]*
